Silver Bullets

Young Lords

I'm starting to feel strange, something's coming over me
I was bitten the other night from what I could not see
[Chorus] It's getting closer, I start to sweat
Please don't forget the silver bullets
I'm turning into something, baby don't be scared
I promise not to hurt you
But baby please come prepared
With silver bullets
I know darling it's such a horrible sight
Apart this violent night
Be aware of the moon full of the warewolves

But I promised I won't hurt you
[Chorus] It's getting closer, I start to sweat
Please don't forget the silver bullets
I'm turning into something, baby don't be scared
I promise not to hurt you
But baby please come prepared
With silver bullets
X2
With silver bullets
With silver bullets
