Waking Up

Days Away

It's the simplest things we tend to ignore,
when it's the simplest things that mean so much more.
Quit falling down because this is what I bet. Come on.
Don't take those pictures down tonight.
Please just wake me up.
That would be a nightmare.
Well, even if she wanted me to, I wouldn't be there in a hurry.
If you did I know I would run away and scream.
If she begged me I'd never bend back.
If she wanted me to I couldn't listen to that.
Remember me,
I'm the one standing to the right of you whispering in your ear,
"I'm gonna be with you forever."
