## Me Myself And I (Andrew Friendly Mix)

## **Darren Hayes**

I'm kinda reeling
A deja-vu feeling
We've been together
In another lifeGot me extending
That network's ending

The future echoes

With your memoryNow darling, I don't know what the future will bring

But I am willing to sing 'til I drop

Now baby, I don't know how it happened to be

But when we met it was like future shockTell me what to do, me myself and I

It's gonna take a time machine

To get it right

And it's so cruel, I wanna take you home I'm gonna speed those hands of time right up

So that I don't leave here all alone. Woo hoo! The death of the romance

Thought there was no chance

Then you appeared right in front of me

I got to thinking

Loneliness sinking

I felt the cloudiness come over meNow darling, I don't know what the future will hold

But I'm not willing to do as I'm told

Now baby, I don't care how it happened to be

But I know that my future's right in front of meTell me what to do, me myself and I

It's gonna take a time machine

To get it right

And it's so cruel, I wanna take you home

I'm gonna speed those sands of time right up

So that I don't leave here all alone. Woo hoo!Did you ever get the feeling that the universe is leaning?

It's accelerating, it will never stop

Did you ever wonder if the number one divide by zero

Is infinity and if that's the case then what?

If imaginary numbers are abstractions of the real thing

Then could someone make the clock of time stop?

If we were always meant to be together like forever

Than it must have been a future shockI don't know what the future will bring

But I am willing to sing 'til I drop...What to do, me myself and I

It's gonna take a time machine

To get it right

And it's so cruel, I wanna take you home

I'm gonna speed those sands of time
Right up so that I don't leave here all aloneI don't know what the future will bring
But I am willing to sing 'til I drop (Gonna speed those sands of time right up)
Oh darling, I don't know how it happened to be
But when we met it was like future shockWhat to do, me myself and I
It's gonna take a time machine
To get it right
And it's so cruel, I wanna take you home
I'm gonna speed those sands of time
Right up so that I don't leave here all alone
