

Simple Song

William Steffey

It was warm, now it's cold
It was young, now it's old
Love was here, now it's gone
 Simple song

Once she did, now she don't
Once we tried, now we won't
How could love go so wrong?

 Simple song
Oh, it don't take much to say it
 And anyone can play it
 All you got to do is live it

 And anybody can
Simple tune, simple words
 Simple me, simple her
She was here, now she's gone
 Simple song

Oh, it don't take much to say it
 And anyone can play it
 All you got to do is live it
 And anybody can
