Controlled

Primal Fear

Infinite communication
Hyperflash in information
We are flooded by this media overkillInvoluntary education
Predestined destination
Brainless servants of the new societyOpen your eyes
New generation
Beware of the dangerYou're controlled
Mind violation
You're controlled
Directed nationSupervised but you don't see it
Take good care beware of this shit
Hidden messages
In every sensual overflowTo oppose the supervision
Take it as your private mission
A warrior for the free in mind eternallyOpen your eyes
New generation
Beware of the dangerYou're controlled
Mind violation
You're controlled
Directed nation
