

# Controlled

## Primal Fear

Infinite communication  
Hyperflash in information  
We are flooded by this media overkill  
Involuntary education  
Predestined destination  
Brainless servants of the new society  
Open your eyes  
New generation  
Beware of the danger  
You're controlled  
Mind violation  
You're controlled  
Directed nation  
Supervised but you don't see it  
Take good care beware of this shit  
Hidden messages  
In every sensual overflow  
To oppose the supervision  
Take it as your private mission  
A warrior for the free in mind eternally  
Open your eyes  
New generation  
Beware of the danger  
You're controlled  
Mind violation  
You're controlled  
Directed nation
