

# To Be Wanted

**Olivia Newton-John**

You move your hand across my neck  
You trace your hand across my cheek  
And all is said, though we never speak  
To be Wanted To Want  
I want to be wanted, to want I move my hand across your hair  
I trace my hand across your lips  
And all I need is to be like this  
To be wanted, to want  
I want to be wanted to want Let it be so  
Wither thou go  
My heart will follow  
Just a stones throw  
Into your soul  
Beyond Today .. beyond tomorrow When Angels dream of the perfect Kiss  
They want to be wanted  
To Want  
I want to be wanted  
To Want To be wanted .To Want.
