

# Turn the Page

## Aaliyah

Yeah, yeahA special smile, a certain touch

I never had a love that I loved so much

When I look back, you're everywhere

Turn the page, you were thereMy very best friend, my summer day

My only someone to depend on

When I'm lost in my way

You came and answered my every prayer

Turn the page, you were thereWhat would I do if some strange morning

I opened up my eyes to find you're gone?

I can't imagine how I would survive that

Find another reason to go onMy one sure thing, my solid ground

All I ever wanted was the love that we found

When I look back, you're everywhere

Turn the page, you were there, yeahWhat would I do if some strange morning

I opened up my eyes to find you're gone?

I can't imagine how I would survive it

I can't imagine how I would go onA special smile, a certain touch

I never had a love that I loved so much

When I look back, you're everywhere

Turn the page, you were thereYou came and answered my every prayer

Turn the page, you were thereHey, yeah, yeah, yeah
