

# Feeding the Undead

## Bloodbath

Come forth defiled one, command the swarming of flies  
Let us pray, the womb of darkness will soon give birth  
Contagious dysphoria, asleep in rotten demise  
Malediction awakes the ones absorbed by earthI let the serpent crawl in crawling  
Release me from vile faith Nehebkau  
I see you come with cold  
I heard your name in tongues NehebkauEnslaving the underworld, bring cadavers to rise  
Feed our minds with what was once foreseen  
Bring death to year one, reverse the closing of eyes  
Insanity rules as God of light becomes uncleanFeed the undead, invoke murder  
Crush the forgery, pray the light of day  
Will never come again
