

Words Darker Than Their Wings

Alter Bridge

They say you are right
I hope that I'm wrong
I know that you tried
But still it is gone
Just don't you lose hope
I swear I never dream that we're alone
Now don't you let go
I swear I still believe though I don't know
Remember the years
I still walked tall
I only fear
Now I only crawl
How could I be wrong?
I hope there comes a day your fear is gone
How could we be lost?
Lost just cease to be, not carry on
Into the light may you fall
Into the light may you follow
Into the light may you know
Truth alone
Into the light may you fall
Into the light may you follow
Into the light may you know
Truth alone, truth alone
You can love someone
Go, never to ask why
Or to fear again
Go, find your peace tonight
Go, set out towards the sun
Let the new begin
Go, soon your day will come
Day will come, oh, your day will come, oh
Into the light may you fall
Into the light may you follow
Into the light may you know
Truth alone
Into the light may you fall
Into the light may you follow
Into the light may you know

Truth alone, truth alone
Truth alone, truth alone
Truth alone
