

# Falling Apart

## Geographer

Take what you give me  
Take my time  
I'll take all you can see  
and I'll make it mine  
I know  
This life  
Is over before it starts That's why we're always falling  
Falling apart Oh,  
Falling apart, falling apart, falling apart  
Again  
I was the answer  
To your cries  
You were the water  
That I turned into wine  
And I know  
This life  
Is more than sum of all its parts That's why we're always falling  
Falling apart Are you coming to save me  
Are you coming tonight  
I don't want to lazy  
But I feel like my whole life  
Has been  
A horse  
That's tried its best to bump you off  
I guess I'll always just be falling  
Falling apart Oh,  
Falling apart, falling apart, falling apart  
again Oh,  
Falling apart, falling apart, falling apart  
again Oh,  
Falling apart, falling apart, falling apart  
again Oh,  
Falling apart, falling apart, falling apart  
again
