

# New Blue Star

## Gustafer Yellowgold

I just found a star out in the yard  
Resting inside my firefly jar  
Could this be true?  
She's my New Blue Star

Up for a ride through cold, black skies  
Showed me what it was like to fly  
Could this be true?  
She's my New Blue Star

Well, here on this big, blue marble  
We haven't much to say  
That could beat livin' lazy  
In the milky way

So I brought her inside  
Turned down the lights  
I'm no longer blind on moonless nights  
Could this be true?  
She's my New Blue Star  
She's my New Blue Star

---
