I Know What I Like

House of Large Sizes

You can beleive what you wanna beleive
And I'll beleive what I wanna beleive
The same pair of eyes both seeing different things
You're kinda kooky and you're kinda crazy
Excuse me, my mind is kinda lazy
I'm honest but forgiving
My love is never-ending
I know what I like
They call him placebo
But he's known as a seagull
Food that hurts is not digesting
The pain is never-ending
Dinosaurs attack each other, the food chain on TV
It makes me proud, it makes me proud
Just to be me
I know what I like
[repeat 1st verse]
