

# I Know What I Like

## House of Large Sizes

You can beleive what you wanna beleive  
And I'll beleive what I wanna beleive  
The same pair of eyes both seeing different things  
You're kinda kooky and you're kinda crazy  
Excuse me, my mind is kinda lazy  
I'm honest but forgiving  
My love is never-ending  
I know what I like  
They call him placebo  
But he's known as a seagull  
Food that hurts is not digesting  
The pain is never-ending  
Dinosaurs attack each other, the food chain on TV  
It makes me proud, it makes me proud  
Just to be me  
I know what I like  
[repeat 1st verse]
