

# Go Away

## Sr-71

Once inside the door, I check my face in the mirror  
As I look past this lonely minute  
Was this the ride worth waiting for?  
I'm scared to death that now I've missed it  
But she was not the only stone  
Skipped across this gravel road leading down the path of loneliness  
So I'll fly from this hate, pray my soul the lord will take me  
To a place through time and indifference  
I wanna know, how do you feel?  
I wanna know if this was real  
So tell me what would you say?  
If you can make this pain go away  
She plans her future lookin' bright ahead  
Leaves me in the past  
I can't stand to hang out with my codependent friends  
My patience fading fast  
But every sign and every song is telling me that I don't belong  
But it's okay to feel scared  
'Cause one day soon I'll find myself and realize that no one else

Will make me feel stupid  
I wanna know, how do you feel?  
I wanna know if this was real  
So tell me what would you say?  
If you can make this pain go away  
There's this old man down in Fell's point  
Always hangin' around  
Tellin' me, "Son, the pendulum swings both ways  
But for you, It'll always swing down"  
I wanna know, may be I know, how do you feel?  
Yeah, I wanna know, know, know if this was real, yeah  
Baby I wanna know  
You gotta tell me if this was real  
Yeah, yeah, yeah, yeah  
So tell me what would you say?  
What would you say?  
What would you say?  
If you can make this pain go away
