It's really more than I can say  
Lookin' at this tower  
Angels are off duty and asleep  
In these wee hours  
And there's no place I can go  
And this noise inside my head  
It comes and it goes  
It comes and it goes  
There's really nothing you can stop  
So I guess I'm gonna try  
Climbing up this tower  
Walking up the stones  
Stocking feet, to the clock  
This is one place that I know  
And the face in front of me  
It comes and it goes  
It comes and it goes  
Not some lucky charm  
But something to hold onto  
That could hold onto me  
And there's no place I can go  
And this noise inside my head  
It comes and it goes  
It comes and it goes  
It comes and it goes
