

Closer

Westlife

Come take my hand now
Know there is no doubt
I'm here for you
I'll be the truth Someone in your life
Just look in my eyes
Know that you're home
You're not alone All I know is I can't breathe
Without you next to me Don't give up, don't let go
Come on get closer
Give all we have inside
Don't look back
Come on get closer
The world is ours tonight
Tonight, tonight, tonight
The world is ours tonight I know who you are
You are in my heart
So don't say a word
I've already heard I know your secrets
And every moment
This is our world
Our secret world All you are is what I need
'Cause you know I still believe So don't give up, don't let go
Come on get closer
Give all we have inside
Don't look back
Come on get closer
The world is ours tonight
Tonight, tonight, tonight
The world is ours tonight Don't walk away, we can survive this if we try
Don't leave me here tonight please give me just a sign
I'll put my heart on the line Don't give up, don't let go
Come on get closer
The world is ours tonight Don't give up, don't let go
Come on get closer
Give all we have inside
Don't look back
Come on get closer
The world is ours tonight
Tonight, tonight, tonight

The world is ours tonight
Tonight, tonight, tonight Come on get closer
