Love You Long Time

Jazmine Sullivan

Nobody ever loved me quite like you
I got a real good dude, and he love me a lot
And ain't no other man is gonna take his spot
And I, I'm so happy you're mine
So I'ma love you a long time
Let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
I never knew someone like you, oh no
And I never felt the way I do
Before, before, before
I don't wanna lose ya, won't ever misuse ya
If you ever left baby I swear I would lose it
Maybe I should cool it, I know I'm acting foolish
Nobody ever loved me quite like you
I got a real good dude, and he love me a lot
And ain't no other man is gonna take his spot
And I, I'm so happy you're mine
So I'ma love you a long time
Let me love you a long time
Let me love, let me love you a long time

Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
This is the sweetest thing I know for sho
And you, you give me reason, reason, to
Hold on, hold on, hold on
I don't wanna lose ya, won't ever misuse ya
If you ever left baby I swear I would lose it
Maybe I should cool it, I know I'm acting foolish

Nobody ever loved me quite like you
I got a real good dude, and he love me a lot
And ain't no other man is gonna take his spot
And I, I'm so happy you're mine
So I'ma love you a long time
Let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Let me love, let me love you a long time
Hey baby
