Lighthouse

Ernie Halter

Let me be your lighthouse
Let me guide your hand
Let me be your shelter
For you, for you I standWhen you feel the dark inside you
And the wind and waves
Keep pushing you down
Feel the whole world pulling you aroundLet me be your lighthouse
Let me guide your hand
Let me be your shelter
For you, for you I standWhen you feel the dark inside you
And the moon and stars
Don't lead you nowhere
Feels like no one is watching up thereLet me be your lighthouse
Let me guide your hand
Let me be your shelter
For you, for you I standLet me be the one
Standing when you come
Lay your anchor down
And let me wrap my arms around youLet me be your lighthouse
Let me guide your hand
Let me be your shelter
For you, for you I stand
For you I stand, for you I stand
