You Led Me

BarlowGirl

Good morning
The night is over and gone
I thought once
This dark would last for so longFeel the sunlight
On my face
You have brought me
Through this placeJesus, Jesus, You found me
Through the long night
You led me, You set me freeDo You see
Just what You've done in my life?
You gave me
More then I hoped, for now IFeel Your sunlight
On my face
You have brought me
Through this placeJesus, Jesus, You found me
Through the long night
You led me, You set me freeFeel Your sunlight
On my face
You have brought me
Through this placeJesus, Jesus, You found me
Through the long night
You led me, You set me freeGood morning
The night is over and gone
