

# You Led Me

## BarlowGirl

Good morning  
The night is over and gone  
I thought once  
This dark would last for so long  
Feel the sunlight  
On my face  
You have brought me  
Through this place  
Jesus, Jesus, You found me  
Through the long night  
You led me, You set me free  
Do You see  
Just what You've done in my life?  
You gave me  
More than I hoped, for now I  
Feel Your sunlight  
On my face  
You have brought me  
Through this place  
Jesus, Jesus, You found me  
Through the long night  
You led me, You set me free  
Feel Your sunlight  
On my face  
You have brought me  
Through this place  
Jesus, Jesus, You found me  
Through the long night  
You led me, You set me free  
Good morning  
The night is over and gone
