Written In Stone

Jonny Kaplan

When we kiss that way
I search for words that might explain
How can a love go so deep?
Girl, it's in my blood, it'll always be a part of me
If we stay together
Or if we go our separate ways
I know, love will last forever
The sun may someday lose it's light
The moon may not shine one night
Your heart will always have a home
It is written in stone, written in stone
Seasons go by and minds have changed
But I will never doubt why I feel this way
It goes on, so strong like a solid rock
Even when the moment's gone
Nothin' last's forever
But one thing's sure to stay the same
Our love, the love is getting better
The sun may someday lose it's light
The moon may not shine one night
And I know just how the story goes
It is written in stone, written in stone
True love is timeless and unconditional
You don't need to read the writin' on the wall
I can see the future, happiness won't fade away
The sun is in the sky just like it was yesterday
Love will last forever
The sun may someday lose it's light
The moon may not shine one night
Your heart will never be alone
It is written in stone, written in stone
Got true love, it's timeless
But it'll grow through smiles and sadness
Won't you work with me?
Our love, it will be forever
If I know sometimes you might not believe it
But baby, I'll do my best to show it, let you see it
Time might not be so bad
But I know we'll come out ahead, girl

'Cause love is timeless
Timeless and unconditional
You don't need to read the writing on the wall
It is written in stone
Happiness won't fade away
