

# Back to Me

## Jimmy Somerville

Ohhhhh

Back to me,

back to me

Bring it home

I can feel you, feel your hand in mine

Though you are so far away from me

I can hear you hear you call my name

Telling me you'll soon be on your way

Somehow break it down and bring it back to me

Somehow break it down and bring it home

Somehow break it down and bring it back to me

Somehow break it down and bring it home

Ohhhhh

Back to me, Bring it home I have waited far too long for you

I need to see to touch your smiling face

I won't dream for dreamers dream alone

Its time to make it real so come on home

Somehow Break it down and bring it back to me

Somehow break it down and bring it home Back to me, bring it home, back to me, bring it home Bring it home,  
bring it back to me

I've waited for too long

Somehow Break it down and bring it back to me

Somehow break it down and bring it home I've waited far too long

Somehow Break it down and bring it back to me

Somehow break it down and bring it home Bring it home, Bring it home  
Break it down and bring it back to me
