You CanÂ´t Win

Tomahawk

If you wanna bleed, then come along with me
We're only half breeds but we'll be home free
So mark your territory, 'cause it's onPut your badge on, we're gonna mow 'em down
We've got a feelin', it's even breathin'
We know how cheap our freedom isPut on my best white shirt, walkin' down the street like a speed ball
Purrin' like a cat out on early parole
Well, I'm taking them on, 'cause it's onAnd every power abused, and every item consumed
Now it's on, 'cause it's on
The laws of history never led me on 'cause they're clear
'Cause it's on, and it's onIt's on
We are the police and now we're gonna start a riot
It's on
Now you'll see just how we're gonna start a riot
We are the police and now we're gonna start a riotDon't know where to begin, it's all over again
And it's on, it's on
And if you think your free then you'd better believe
That it's on and it's onAnd we'll drink anything if it burns and it's strong
'Cause it's on and it's on
And the crop of the cream, ain't gonna fuck with me
'Cause it's on and it's onAnd we ain't gonna propagate for you
'Cause it's on, and it's on
We're gonna quit making money 'til it's taken care of
'Cause it's on and it's onIt's on
We are the police and now we're gonna start a riot
Saw it on TV and now we're gonna start a riot
We are the police and now we're gonna start a riot
Saw it on TV and now we're gonna start a riot
