Breaking the Heart In

Nick Gill

You've been down, looking for the edges of what seems to be
A never ending frown, I'm only, I'm only learning how, learning how to love
One more time around.

I'll be your friend, don't worry now, our love will win, I'm breaking the heart in

How am I gonna be that way, how am I gonna try for you and be the one that you will take, I know I know, you won't give me a chance, a glance and wait.

Chorus (2x)

Bridge:
I'll be my friend, I'll be my friend, I'll be your friend

Chorus (5x)
