

# Hearts In Decline

[Dan Fogelberg](#)

Nothing lasts forever, I know that this is true  
But I never knew how true it was 'til I was losing you  
Oh maybe I'm a dreamer or maybe I'm a fool  
But I never thought that love could be this careless or this cruel  
You wrestle with the reasons but the reasons  
never rhyme  
Or comfort when the heart is in decline  
And it doesn't really matter if it's chance or it's design  
It's gonna to take some time  
Now love don't play no favorites  
You know there's no one that's immune  
'Cause she changes her demeanor  
Like the phases of the moon  
Oh, there ain't no easy answers  
You know there's only shades of gray  
But when it's love or it's survival  
I guess you gotta get away
