

# Water Song

## The Mantras

Verse:

Glistening water fades to black,  
You feel the wind upon your face before it scurries down your back,  
And everything we used to know,  
Evaporates in front of me leaving just translucent glow

Chorus:  
There are no expectations in this world when no one's there,  
So i ask you to come closer but I burst and dissipate into the air

Verse:  
Distant stars are gazing down,  
I look back up and listen hard and try to hear their sound,  
But the only thing that i can hear,  
Is the distant sound of the tide as it's waves come slowly near

(Chorus:)  
Verse:  
Stumbling to my bed at night,  
Restless dreams and I awaken just in time for the sunrise,  
Distant lands start to fade in,  
I take a breath of salty air, and smile, for I am home again
