

Super Bon Bon (Propellerheads Radio Edit Version)

Soul Coughing

Move aside and let the man go through
Let the man go through
Move aside and let the man go through
Let the man go through Move aside and let the man go through
Let the man go through
Move aside and let the man go through
Let the man go through, through If I stole
Somebody else's wave to fly up
If I rose up
Up with the Avenue behind me Some kind of verb
Some kind of moving thing
Something unseen
Some hand is motioning
To rise, to rise, to rise To fight that you must cut clean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, super bon bon To fight that you must cut clean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, super bon bon And by the phone
I live in fear
Sheer chance will draw
You in to here To fight that you must cut clean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, super bon bon To fight that you must cut clean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, super bon bon Super bon bon, super bon bon
Super bon bon, super bon bon
Super bon bon, super bon bon bon bon Move up and let the man go let the man go
Move up and let the man go let the man go
Move up and let the man go let the man go
Move up and let the man go let the man go through Move aside and let the man go through
Let the man go through
Move aside and let the man go through
Let the man go through Move aside and let the man go through
Let the man go through
Move aside and let the man go through

Let the man go through
