

Your Name Is Wild

Guided By Voices

Time to say to you, my child
Your name is wild
And if you call me in
I'll change the color
Your name is wild And I'll be taking you
Soon now to read the orange signs
And I say now to you
"So what, the useless fade in time" You chose me to read you no lies
Hooray for the day
And I pay the Angels to keep you my child
You are safe for now
God knows it too Time to say to you, my dear
Your name is wild
And if you call me in
I'll change the color
Your name is wild And I'll be taking you
Soon now to read the orange signs
And I say now to you
"So what, the useless fade in time" You chose me to read you no lies
Hooray for the day
And I pay the Angels to keep you my child
You are safe for now
God knows it too
