

Tear Down These Walls (feat. Tamra Keenan)

Kaskade

I see you wage a war in your heart
Lit like an inferno
You can't stop once you press start
Falling like a domino You're fired up, you're burning now
Losing all the feeling
You're wired up, you're turned up loud
Bursting to the ceiling Tear down these walls
Tear down these walls
Tear down these walls
Tear down these walls Tear down these walls
Tear down these walls A smoking gun, you hide in your heart
Spinning 'round the chamber
This world has taken you too far
Left you for a stranger You're loaded up, it's crying now
Losing all the feeling
You're blowing up, can't stop it now
Bursting to the ceiling Tear down these walls
Tear down these walls Tear down these walls
Tear down these walls
Tear down these walls
Tear down these walls
