## Avail

Advisory - the following lyrics contain explicit language:

day breaks the same for the expressionless open the gates at a stand still routine media dreams, no reality  
pressure eager to be recognized fighting for promotion  
no time for rest no  
next door no contact impersonal glance afraid to go out learn to isolate companionship through classifieds a  
desperate attempt to put a name on the face  
no time for companionship no  
ego knows you want ego knows you'll take it  
inconvenience a nightmare never ending race four wheels, pavement ego, poor health hands of greed grab  
whatever they can take eager to materialize fighting for a piece  
no time for rest no  
rise  
when it happens friend no, don't let them break you  
rise  
no matter what they say no, don't let them break you
