Who Cares?

Angela Brownridge

Moving on the evening of the 87th day
Maybe a solution might affect you right away
Jesus taught Himself, a certain state of mind
Line 'em up, move 'em along, haven't got much time
Who cares? No one's talking anyway
Who cares? Won't the problem go away?
Who cares? Change the channel, standard shift
Who cares? Does anybody give a shit?
Dimwits on the freeway stay alive at 55
Politicians speeding, just trying to survive
Couldn't stop the press, what was a bloody mess
Mashin' down a paper sack and couldn't pass the test
Who cares? No one's talking anyway
Who cares? Won't the problem go away?
Who cares? Change the channel, standard shift
Who cares? Does anybody give a shit?
