## Masspike Miles

Man I am out of touch with a regular  
My . is saying hot the resolution of high ...  
Plants is solution check the station  
That is conversation . today is the same  
As a child learning his ABCs  
. Tv screens now I can do anything  
Without the kind of love penny brings  
. the future is here but you will have to catch me come and gt meI am taking on i am out of here i am gone  
You can catch me if you can  
But I am gone I am gone  
We are out of here  
Out of here.  
Weightless I can see the continent  
I am bringing back intelligent some space  
Prepare for the . infinite possibilities infinite with the astronauts  
. directly to what I was is what I have become .  
I work light years away from this typical . like a black whole  
Get out that owe shit .I am taking on i am out of here i am gone  
You can catch me if you can  
But I am gone I am gone  
We are out of here  
Out of hereIs 5 in the morning  
And I am feeling for your body like I never had  
Like I have to leave so soon  
The way you make me feel  
I am gonna state you if you let me  
I will make sure not to forget me  
I am down to make anything  
As long as I make you scream  
I am gonna work your body  
I won't tell nobody as long as you don't tell nobody  
I am so excited I am so . so come and get  
Does it take till you get to the center  
The world you never know  
I wish I would take you slowCome to the candy store  
X 4. study when you speak  
I must have . between your tights  
Your perfume is beautiful  
I don't require nothing else

Standing in front of you  
I won't tell nobody as long as you don't tell nobody  
I am so excited I am so . so come and get  
Does it take till you get to the center  
The world you never know  
I wish I would take you slowCome to the candy store  
X 4
