Mega Bottle Ride

Joe Strummer and the Mescaleros

I took a tram into the fourth dimension
'Cos I had the blues, the blues of throwing it all away
Just gimme a Tequila, I'll slam it the 4 D way
And when I got there you know it had certain similaritiesLike no smoking anywhere
And hiding in the khazi to avoid paying the fare
4 D Tequila anyone
And don't think we didn't dance to records by the Fifth Dimension
In the disco sphere like Kublai Khan, Kublai KhanAnd it was pretty goddamn hazardous
Out on the Illminster bypass, out on the Illminster bypass
Out on the Illminster bypass, out on the Illminster bypassAqua planing to the theme park
We took a ride called the Banchoff Klein, mega bottle ride
Well, how we spewed inside, back and forth
In time, mathematics and pride, insideWe've gone Balkan, we've gone Balkan anyway
It absolutely had to happen to someone todayYeah, there's no smoking anywhere, throw it all away
Yeah, we've gone Balkan anyway, you can get rid of the blues this way
Yeah, that's how we fix the blues today
It absolutely had to happen to at least someone todayYeah, there's no smoking anywhere, throw it all away
Yeah, we've gone Balkan anyway, you can get rid of the blues this way
Yeah, that's how we fix the blues today, throw it all away
And it's time to be doing something good
