Don't You Mess With My Money

Sterling Harrison

Now, here's one thing I want everybody to understand, now

Don't you mess with my money
Don't you mess with my money
Don't you mess with my money
'Cause, when you do, you're messing with me
Hi, hi

Now, money is a thing that everybody needs
You can bet your life it don't grow on trees
The quickest way that you can blow your friends
Is to let them have some money and your friendship ends

Don't mess with my money
Don't you mess with my money
Don't you mess with my money
'Cause, if you do, you're messin' with me

Now, listen to me, people, I'll tell you no lies
Money is a hard thing to come by
Now, here's one thing you got to understand
You can't stretch your money in everybody's hand

Don't mess with my money
Don't you mess with my money
Don't you mess with my money
'Cause, when you do, you're messin' with me
Hi-hi, babe
Play it for me one time

Now, money is a thing that everybody needs
You can bet your life it don't grow on trees
The quickest way that you can blow your friends
Is to let them have some money, and your friendship ends

Now, here's a few things that money can do
When your hungry, it buys you a steak or two
When your shoes bet run down and beat
A little bit of money will dress up your feet

Don't mess with my money
Don't you mess with my money
Don't you mess with my money
'Cause, when you do, you're messin' with me

Hi, hi
Hey
Don't mess with it!
It's my money

Let me tell you something
That old girl that lives down the street
A little bit of many makes her talk awful sweet
If you get sick and you're feelin' low
Call the doctor if you have a little dough

Now, money is a thing that you gotta have
You just can't do without it at all
Money
Talkin' 'bout money
It's my money
I love money
