Another Planet

The Squatting Toad Band

[chorus]Hey this drank got me feelin like im on another planet,
ima faint, man it feels like im on another planet,
whatcha think girl i want it, I know you gonne let me have it,
Im on another planet, Im on another planet.
And i wont come down it feels so good,
I dont wanna come down it feels so good, i walk around like im in space cause it feels so good,
Im on another planet, Im on another planet.
[Verse 1]I'm on another planet
ask me how i got there,
I'm dressed as a captain
cause my money so rare,
I'm drinkin on that shit
it lighty cost some bucks,
most people dont drink it cause it cost to much.
And when im at the bar
I be lookin like a star,
I dont pull out cash
I be swippin' credit cards,
like Visa or Master
Express or black ones.
They assume im famous
like artist or actor.
Moneys not a factor
I grow it out my ass,
if money came from tree's
i would grow it in my plants,
grow it my garden
Like remy martin,
had me feelin' like im on saturn and even mars andddd
[Chorus]Hey this drank got me feelin like im on another planet,
ima faint man it feels like im on another planet,
whatcha think girl i want it I know you gonne let me have it,
Im on another planet, Im on another planet.

And i wont come down it feels so good,
I dont wanna come down it feels so good, i walk around like im in space cause it feels so good,
Im on another planet, Im on another planet.
Lil' Wayne
[Verse 2]ehhmmmm goodbye world, its Weezy aka mister he took my girl,

im on one, (haha) im on two,i got that bird flu from that grey goose,
and i dont need no juice..just a little ice,
and we can run around saturns ring twice.
i like my wine white, yeah patron straight,
I'll take you to mars and show you i got my own space.
stir stir dont shake,
then dont break i take you out this world,
he just take you out the states.
syrup by the crate, man im on my eighth,
it make me move slow so ima be a little late.. Mula
[Chorus]Hey this drank got me feelin like im on another planet,
ima faint man it feels like im on another planet,
whatcha think girl i want it, I know you gonne let me have it,
Im on another planet, Im on another planet.
And i wont come down it feels so good,
I dont wanna come down it feels so good, i walk around like im in space cause it feels so good,
Im on another planet, Im on another planet.
[Verse 3]I'm next to the moon, close to the sun,
so call me a star, I'm as bright as they come. High in the sky, connected to big dippers, when they come to licker, I am the big sipper. Tell me have you ever seen an astronaut stripper, I don't do it on Earth, but here I'll tip her. Take her to my ship, n fuck to a sex tone, right after I hit it, I'm dippin to neptune. 5,4,3,2,1, take off, I can prove mercury aint far as they say dawg. Started on one fifth, now I'm on number four, and off of those four, I've been around the solar.
[Chorus]Hey this drank got me feelin like I'm on another planet, ima faint, man it feels like I'm on another planet. Wat u think, girl I want it, I know you gonne let me have it, I'm on another planet, I'm on another planet.
And i wont come down it feels so good,
I dont wanna come down it feels so good, i walk around like im in space cause it feels so good,
Im on another planet, Im on another planet.
