

Can't Have You

Parade of Lights

You know that I've been feeling like this forever
Talking late into the night, and we're watching the sun rise
I know, it's now or never
But if I talk too much, and we never touch What am I supposed to do
If I can't have you
What am I supposed to do, yeah
If I can't have you, oh oh I just wanna feel you all over my body
Won't you come into my world, imperfections and control (?)
you know, I've ever wanted
But if I talk too much, and we fall in love What am I supposed to do
If I can't have you
What am I supposed to do, yeah
If I can't have you
What am I supposed to do
If I can't have you
What am I supposed to do, yeah
If I can't have you, oh oh Finally, It's happening, close your eyes and come to me
Finally, it's happening, you're all I want and all I need
Finally, it's happening, close your eyes and come to me
Finally, it's happening, you're all I want
But I talk too much, and we never touch What am I supposed to do
If I can't have you
What am I supposed to do, yeah
If I can't have you
What am I supposed to do
If I can't have you
What am I supposed to do, yeah
If I can't have you, oh oh
