

# Rockin' Heaven Down

## Heart

Step into the light  
You're on  
You're hookin' to the night That look from eye to eye  
A flash gets passed around  
You're a band of wild Angels  
Rockin' in Heaven down Come on, roll roll roll  
Roll out the soul  
You get that feel  
Everybody knows You're moving their minds  
They know you're moving their minds around  
You're just rockin' in Heaven  
Rockin' in Heaven down You step into the night  
On your way back home  
What a scene it was tonight  
Im so glad Im not alone baby, baby The look in your eyes  
You just make me come unwound  
I say come on baby lets go  
Rockin' in Heaven down Come on roll, roll, roll  
Roll out the soul  
'Coz you get that feel  
And everybody knows You're moving their minds  
You know you're moving around, right yeah  
Rockin' in Heaven  
Rockin' in Heaven down Come on now roll roll roll  
Roll out the soul  
'Coz when you get that feel  
Everybody knows You're moving their minds  
You know you're moving around, around  
'Coz you're rockin' in Heaven  
Rockin' in Heaven down Rockin' Heaven down Rock me home  
Rock me home
