

Learn To Fly

Procol Harum

(g.brooker / k.reid / m.fisher)

You and me got a chance to make things right

 The writing... the writing's on the wall

You and me got a chance to turn things 'round

 We got no time... the future's slipping

 Through our hands

 Learn to fly

Where eagles only dare to try

 We're on the wing

 We dare to win

We see the future and we're gonna make it

 Learn to live

You know you got so much to give

 It's in the air

 It's everywhere

We got a vision and we're gonna claim it

 You and me we can't turn back at all

The die is cast... (you know) the deal is done

 You and me we knew this day would come

And now it's here... the journey's just begun

 Learn to fly

Where eagles only dare to try

 We're on the wing

 We dare to win

We see the future and we're gonna make it

 Learn to live

You know you got so much to give

 It's in the air

 It's everywhere

We got a vision and we're gonna claim it
