

Ladylike

Big Wreck

So when she lays down it'll be
With me
Lord, she'll lay down with me And when she walks out it'll be
On me
Lord, she'll walk out on me When she kneeling it'll be
For me
Lord, she's kneeling for me And if I need you to be secure
It's cause I'm not
You're so ladylike and more When she focused it'll be
On me
Lord, she's focused on me And if she walks with it'll be
With me
She's walking with me And if I need you to be secure
It's cause I'm not
You're so ladylike and more If she wishes it'll be
On me
Lord, she's wishing on me And when she's hopeless
Lord, she's hopeless with me And if I need you to be secure
It's cause I'm not
You're ladylike
I need you to be secure if I'm not
You're ladylike and more
