

# Diamond In Da Ruff

Jaheim

Mmm mmm diamond  
Oh diamond  
(Diamond)Diamond in da ruff  
Someone that you don't meet twiceWe left the Brickz for the 'Burbs' turned Mo into Remy  
Matching fur coats and Fendi from the bus to a Bentley  
Coupe with a closet full of shoes, yeahThan our smiles turned to frowns ups turned to downs  
I don't know where I'm going now  
I think about her every once in awhileWe started out like Bobby and Whitney, Justin and Britney  
Then it all got ugly, if it weren't for the money  
You said I start actin' funny but what's wrong witcha honey  
Then the good turned to bad forgot what we had  
Is it to late to get it back? I think about her more than once in awhileLike when I spot a rainbow or see a fallin'  
star  
A set of twins, or a classic car  
A four leaf clover, or a two dollar bill  
It's so rare that it's so unrealAnd I don't know how to get over her smile  
I wonder what she's doin'  
(What's goin' on?)  
I think about her every once in awhile  
(Once in awhile)I should've came with a ring, set a date for next May  
Guess I thought that you'd wait  
Now I hate that I took so long  
Played around wit' her now she's goneNow my smiles turned to frowns, ups turned to downs  
And I don't know where I'm goin'  
(Now, now, now, now)  
I think about her every once in awhileWe argued like Archie and Edith  
Like Ike turned on Tina but I really didn't mean it  
I was raised not to hit a woman  
Especially not the one I'm lovin'But when the good turned to bad happy to sad  
I wish we could take it back  
(How I miss you baby)  
I think about her every once in awhileLike when I spot a rainbow or see a fallin' star  
A set of twins, or a classic car  
A four leaf clover or a two dollar bill  
It's so rare that it's so unrealI don't know how to get over her smile  
I wonder what she's doin' now  
I think about her every once in awhileYour like a star shinning in the broad daylight  
Something you don't see all the time  
And now I finally recognize

That I shoulda made you all mine  
Never shoulda let you pass me by  
You put that sparkle in my life  
Someone that you don't meet twice  
I'm gonna live to regret it baby, ooh  
Baby, baby I miss you need you yeah
