

# How Affection

## OLDCODEX

thick shady eerie woods  
looking down on me  
you're making me suffer  
veiling most of my face  
because I threw mud in heavenwardyou and me  
distant-wall relation  
maybe the problem is me  
this place hid the sun  
set a fragile vision  
in my held armsin my held arms  
understanding  
how affection, it changed  
will able to see  
before it slips  
behind this dark lost green  
behind this dark all the... pleasethe puppet woke me up early night  
I was in the profound woods  
where am I where am I  
body covered with mud  
all cells shattered to pieces  
because i threw mud in downwardyour on morality  
never existed  
he was leaver with ethic  
infiction that you left me  
such an ironic phase you laugter  
such an ironic phaseunderstanding  
how affection, it changed  
will I able to see  
fill up with nothing  
behind this dark lost green  
behind this dark all the... please  
mada furi soso ga nai darou  
mada furi soso ga nai nda  
in my place nowhereyou and me  
distant-wall relation  
maybe the problem is me  
you and me  
distant-wall relation  
maybe the problem is mestanded  
how affection, it changed

will I able to see  
before it slips  
behind this dark lost green  
behind this dark lost green  
how affection, it changes  
will I able to see  
fill up with nothing  
behind this dark lost green  
when will I know real affection  
you're killing me
