

If Not for You

Shakey Graves

well, which one is your world
if for little old you
& you see that sun as an obvious group
yeah he comes around noon after the moon goes down
yeah just to have a little fun
until the day is done well I say why
oooo do you even try
oh to find an alibi
if you come around, I hope you stay the whole damn night
& bring some friends, & brings some foes, & come along & tell some jokes....
& if you're any-thing like me
oh ba-by just you wait & see
mmm... never seems like a good idea well if all the lights said stop
& the oceans, they did drop
& id always feel so on top... if not for you
oh but
oh how time went by
& the oceans, they did rise
& I always felt so hypnotized, if not by you
if not by you(X6)
