

# Let Us Slay

## GWAR

Don't give them a sword and then not let them use it  
Or send them to war and then make them lose it  
This is a bomb, don't want to defuse it  
Death is the answer, go forth and choose itLet us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slay  
The lust for blood won't go awayLet us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slayIt is the era of calamity  
And I see this with perfect clarity  
And there never was an illusion of parity  
I've got no time for your crippled ChristWe have no need for your crippled Christ  
And we never lacked for your advice  
We don't have to hide our genocide  
They'll fear us more when they know the we don't lieIt's gone beyond hatred this time  
You love death, yet call it a crime  
I twist the dagger that's deep in your guts  
I'll put an end to it this timeOn your knees, pray  
It is your destiny  
On your feet, slay  
Obedience through slaveryDon't give them a sword and then not let them use it  
Or send them to war and then make them lose it  
This is a bomb, don't want to defuse it  
Death is the answer, death is the answerTotal control  
We own your soulNo time for life, time for the knife  
Time for the sword, fetus is cored  
Total mutation, necro-mutilation  
The perfect life form, born for pornLet us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slay  
The lust for blood won't go awayLet us slay  
Let them slay, let them slay  
Let them slay, let them slay  
Let them slay, let them slayWe've got no time for your crippled Christ  
And we never lacked for your advice  
Lie after lie, lie, lie

I do believe its almost timeThe crippled Christ, the crippled Christ  
The crippled Christ, the crippled Christ  
The crippled Christ, the crippled Christ  
I do believe it's almost timeYou're always calling for the sacrifice  
And the body count is very nice  
Lie after lie, lie, lie, lie  
I do believe it's time do dieLet us slay
