

# People Die Building Bridges

## Reality Addiction

You once told me  
I'll never change  
You said that  
We can not  
Fight time and space  
Step with me for a minute  
Out side that box  
A place where there are no limits  
Just lines you cross  
Just lines you cross

(Chorus)

This life, is not what I intended  
But I'll try, to make it my own way  
You may find, that people die building bridges  
But I'm crossing, mine today

You once told me  
I'll never be more than a man  
In a chemical cage  
Each time that you would say that  
I'd search my mind  
While you were burning bridges  
I built mine  
I built mine

(Chorus)

One day  
We'll all look back on our choices  
and see that  
each was a step towards the sea  
some spent  
all their time on an island  
and some built  
a bridge with me
