

Like Lovers Do

Heather Nova

There is a paradise that can be found
A better life to bring us 'round
And all we really need to do
Is see the world like lovers do I want to take it easy, take it slow
To catch a fire and let it go
I wanna give myself to you
So we can live like lovers do Like lovers do
I wanna feel that way, yeah like lovers do
They loose themselves for days
And I need to feel, I need to feel that way I can hear you thinking what I feel
I know that what we've got is real
And all we need to get us through
Is just to live like lovers do Just like lovers do
I wanna feel that way, yeah like lovers do
They loose themselves for days
Yeah I need to feel, I need to feel that way
Like lovers do Give me the strength
To give myself to you
Like lovers, lovers do Yeah, all we really need to do
Is see the world like lovers do Like lovers do
I wanna feel that way, yeah like lovers do
They loose themselves for days Lovers do
I wanna feel that way, like lovers do
They loose themselves for days
Yeah, I need to feel, I need to feel that way Like lovers do
