

# Never Again

## Death Threat

You left me here to suffer  
You left me dying alone  
It's only made me stronger  
Your day - your day will surely come  
But for now I lay in wait  
Full of bitterness and filled with hate  
Can you see the pain you caused me?  
You will feel the pain you caused me  
Empty promises written in stone  
Betrayed and left alone  
I'm drowning in my misery  
Because of you I lost my sanity  
Because of you I will never love again  
Because of you I will never love again  
But now I lay I wait  
But for now I lay in wait  
Full of bitterness and filled with hate  
Can you see the pain you caused me?  
You will feel the pain you caused me  
Empty promises written in stone  
Betrayed and left alone  
I'm drowning in my misery  
Because of you I lost my sanity  
Haunted by memories of a love  
That left me filled with pain  
I will never love again  
I replaced your love with hate  
Never love again
