

# Solid

## Kelvin

You're solid, yeah  
Like a rush that I don't wanna stop  
    Saw the signs in your eyes  
    What was up, wasn't right  
    And none of us was innocent  
    Baby, still we played our games  
    Scared to win, left the mess we were in  
    On uneven ground, lost what we found  
    I had to put away my pride  
    To find a way that I could love you more  
    I couldn't keep away from you  
    Then you walk back in my life  
    And all at once we were just like before  
    No one does what you can do  
    You're solid, yeah  
    Like a rush that I don't wanna stop  
    Boy, your love goes on and on  
    You're solid, yeah  
    Just when I thought that our thrill was gone  
    You were solid than a rock  
    Like a cool summer breeze, you're the fan for the heat  
    I feel lyin' next to you, naturally  
    There's a switch in my heart, only you can turn it on  
    You're the flame that lights late at night  
    Deep inside me  
    For so long I tried to fight  
    The way I felt, the way you made me fall  
    But I couldn't keep away from you  
    But then you walk back in my life  
    And all at once we were just like before  
    'Cuz no one knows what you can do  
    You're solid, yeah  
    Like a rush that I don't wanna stop  
    Boy, love goes on and on  
    You're solid, yeah  
    Just when I thought that our thrill was gone  
    You were solid than a rock, baby  
    I surrender, when you do the things you do  
    When we're together, I can't get enough of you

You're the missing piece, the other half of me  
To make me complete  
You're solid, yeah  
Like a rush that I don't wanna stop  
I don't wanna stop, no, no  
You're solid, yeah  
Just when I thought that our thrill was gone  
You're solid, you're solid, you're solid  
You're solid, yeah  
Like a rush that I don't wanna stop  
Boy, your love goes on and on  
You're solid, yeah  
Just when I thought that our thrill was gone  
Goes on and on, when I thought the thrill was gone  
You're solid, yeah  
Like a rush that I don't wanna stop  
Goes on and on, when I thought the thrill was gone  
You're solid, yeah  
Just when I thought that our thrill was gone  
You were solid than a rock, yeah
