

Lay a Little Closer

[Nico & Vinz](#)

Lay a little closer, lay a little closer
And just take my hand and just take my hand
Lay a little closer, lay a little closer
And just take my hand, we will be okay You and I are not on different sides of the world
You and I are not on different sides of the sea, no
And I am crying for you, you are crying for me
So lay your head down close to me, don't be afraid no Lay a little closer, lay a little closer
And just take my hand and just take my hand
Lay a little closer, lay a little closer
And just take my hand, we will be okay If I, if I, if I can't call you, can't call you
My baby, my baby
The sky keeps falling down, and I'm crying for you know
So lay your head right next to me, don't be afraid no
Lay a little closer, lay a little closer
And just take my hand and just take my hand
Lay a little closer, lay a little closer
And just take my hand, we will be okay
What you waiting on?
What you waiting for?
Are you ready?
What you waiting on?
