

# It's Not You

## Halestorm

I'm in love with somebody  
Found someone who completes me  
I'm in love with somebody  
Oh yeah, and it's not you

Verse:

Feel my finger whatcha gonna do  
See these lips are all done talking to you  
I don't mean to bruise your ego  
But I've had you nailed down for so long  
I don't see your name on my tattoo  
Help me understand  
It's been a long time coming  
It's for the best  
No offense

Chorus:

I'm in love with somebody  
Found someone who completes me  
I'm in love with somebody  
Oh yeah, and it's not you

Verse:

I know who you think you are  
Sorry I've turned you on  
But now I'm kissing you off  
Nights are whiskey and cigarettes  
Not enough to make me forget  
I've got someone who has raised the bar  
I've heard it all before  
Stop spinnin your wheels  
Showin you the door  
No hard feelings

Chorus

I'm in love with somebody  
Found someone who completes me  
I'm in love with somebody  
Oh yeah, and it's not you

Bridge

You've probably never been shot down before

(echo)

I'll try to make it easier

Chorus:

I'm in love with somebody

Found someone who completes me

I'm in love with somebody

Oh yeah, and its not you
